To Whom It May Concern,

This letter is to recommend Dr. Susan Goers. She was my high school director and mentor when I attended Capstone Classical Academy. It was her guidance and teaching that helped me to achieve the title of being the inaugural valedictorian of Dr. Goers' school.

My year with Dr. Goers was full of enriching, unique leadership experiences I never saw in any other school I have been to. As the school's director, she provided experiences including student government, stage crew management, and a high school internship. All these experiences were available to me because Dr, Goers modeled an amazing work ethic and cares deeply for the success of her students.

At Capstone Classical Academy, Dr. Goers instilled virtues in all the students. A couple examples that have been prevalent in my life recently are prudence and excellence. I continue to exercise prudence throughout my college career through balancing being a full-time student and my part-time job. She encouraged us and motivated us to be excellent in all we do. A specific application is in my quality assurance technician job, where it is important to never cut corners. I have exercised this virtue to make ethical decisions to ensure the community has safe food. With Dr, Goers' guidance, I found my true north on my moral compass, and I know how to fight for my ethics and beliefs.

I have continued to keep in touch with Dr. Goers and I am excited to have her at my college graduation in May 2023.

I am happy to answer any further questions about Dr. Susan Goers. Feel free to contact me at your convenience.

Thank you,
